

Tracy, of QUILT BUGS quilt shop in Rio Rancho, New Mexico used the inside arc of her 24" Roundabout Ruler to create a "mini" pouch just right for storing her rotary cutter and a few small notions. This is a great way to protect her rotary cutter blade AND the hands of her son, Jeremiah – who is already clearly interested in all things quilt related!

She cut two round pieces of cloth, sewed them right sides together – leaving an unsewn space to turn right sides out. She topstitched closed, pressed, and then folded using the free directions for an origami purse.

GREAT IDEA TRACY!
Thanks!
